3910WB

WATERBORNE DEGREASER

Description

Mixture of water and solvents developed for cleaning and degreasing before surface preparation and before application of primers or topcoats.
Composition based on water and glycol ethers.

Products

3910WB DuPont™ Waterborne Degreaser

Properties

- Eliminates contaminants from old finishes and prepared areas to obtain a perfectly cleaned surface before the application of a primer or topcoat.

Application - remarks

Following specifications listed in the DuPont™ Marine Finishes Manual and in particular:

- Degrease the sanded surface with 3910WB just before application of primer or topcoat.
- Wipe dry with clean cloth.
- Never let 3910WB evaporate from the surface. Treat only one small area at the time.
- Do not use 3910WB to degrease wash primer.
- Use only on fully cured surfaces.
- Change cloths often; never use dirty cloths.
